(node:33788) [MONGODB] Warning: mongoose: the `new` option for `findOneAndUpdate()` and `findOneAndReplace()` is deprecated. Use `returnDocument: 'after'` instead.
(Use `node --trace-warnings ...` to show where the warning was created)
```

A

The screenshot shows the Postman application interface. The top bar includes a search bar, an 'Invite' button, an 'Upgrade' button, and a 'Try Native Git' button. The main workspace is titled 'Kairav's Workspace'. A menu bar at the top of the workspace says 'Menu /ork locally with Git: Open your working directory in Postman to keep your API artifacts in sync with your codebase.' The left sidebar shows a 'COLLECTIONS' section with 'My Collection' containing 'GET Get data' and 'POST Post data'. The main panel displays a POST request to 'http://localhost:3000/students'. The request body is a JSON object:

```
{ 1: { 2: "name": "Anita", 3: "age": 20, 4: "course": "CSE", 5: "email": "anita@example.com" 6: }
```

. The response is a 201 Created status with a response time of 474 ms and a body size of 483 B. The response body is a JSON object:

```
{ 1: { 2: "message": "Student created successfully", 3: "student": { 4: "name": "Anita", 5: "age": 20, 6: "course": "CSE", 7: "email": "anita@example.com", 8: "_id": "6ab1fbb5382ef20ba0e99bb0", 9: "createdAt": "2026-09-22T03:53:25.116Z", 10: "updatedAt": "2026-09-22T03:53:25.116Z", 11: "_v": 0 12: } 13: }
```

. The right sidebar contains a 'Learning to use Postman' section with a 'onboard-user' button, a 'Welcome to Postman, Kairav!' message, a 'What is Postman?' section, and a 'Core Concepts' section with a '1. Sending a Request' subsection.
